

iOS TestFlight Setup Guide

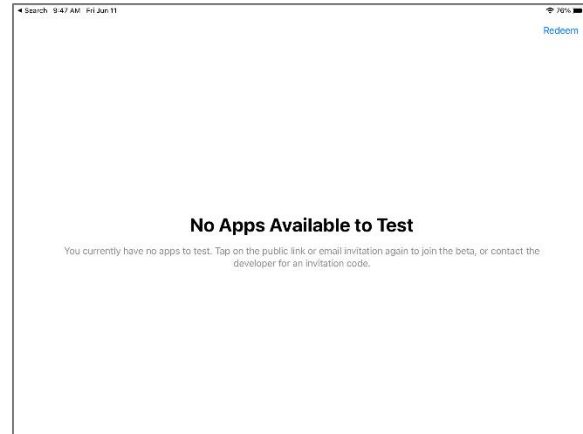

1. Install TestFlight on the iOS device that you will use for testing.

Once Installed you will see a message: *No Apps Available to Test*

Proceed to the next step to install the JusticeConnect BETA App.

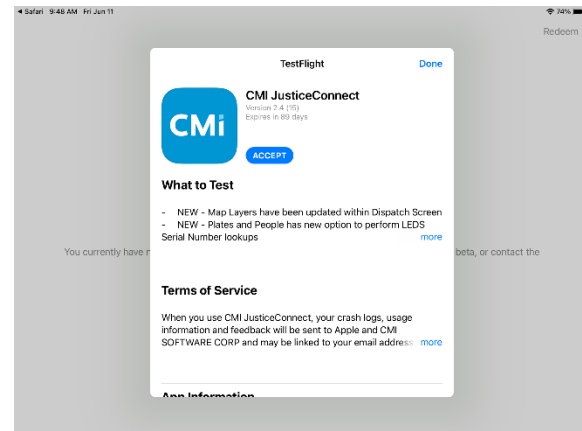

NOTE: If you do not have rights to install the TestFlight App, you will need to request access from your IT Department or MDM Software Manager.

2. On your iOS device, tap on this link: <https://www.cmisoftware.com/testflight>

The TestFlight App will automatically open and then request you to **ACCEPT**.

Proceed to click and **INSTALL** the JusticeConnect BETA App.

More details with steps to uninstall can be found online at this link: https://www.cmisoftware.com/Join_iOS_Beta_Program.aspx
