

Setup JusticeConnect on Android Device

Step 1: Install JusticeConnect App

Search on the **Google Play Store**

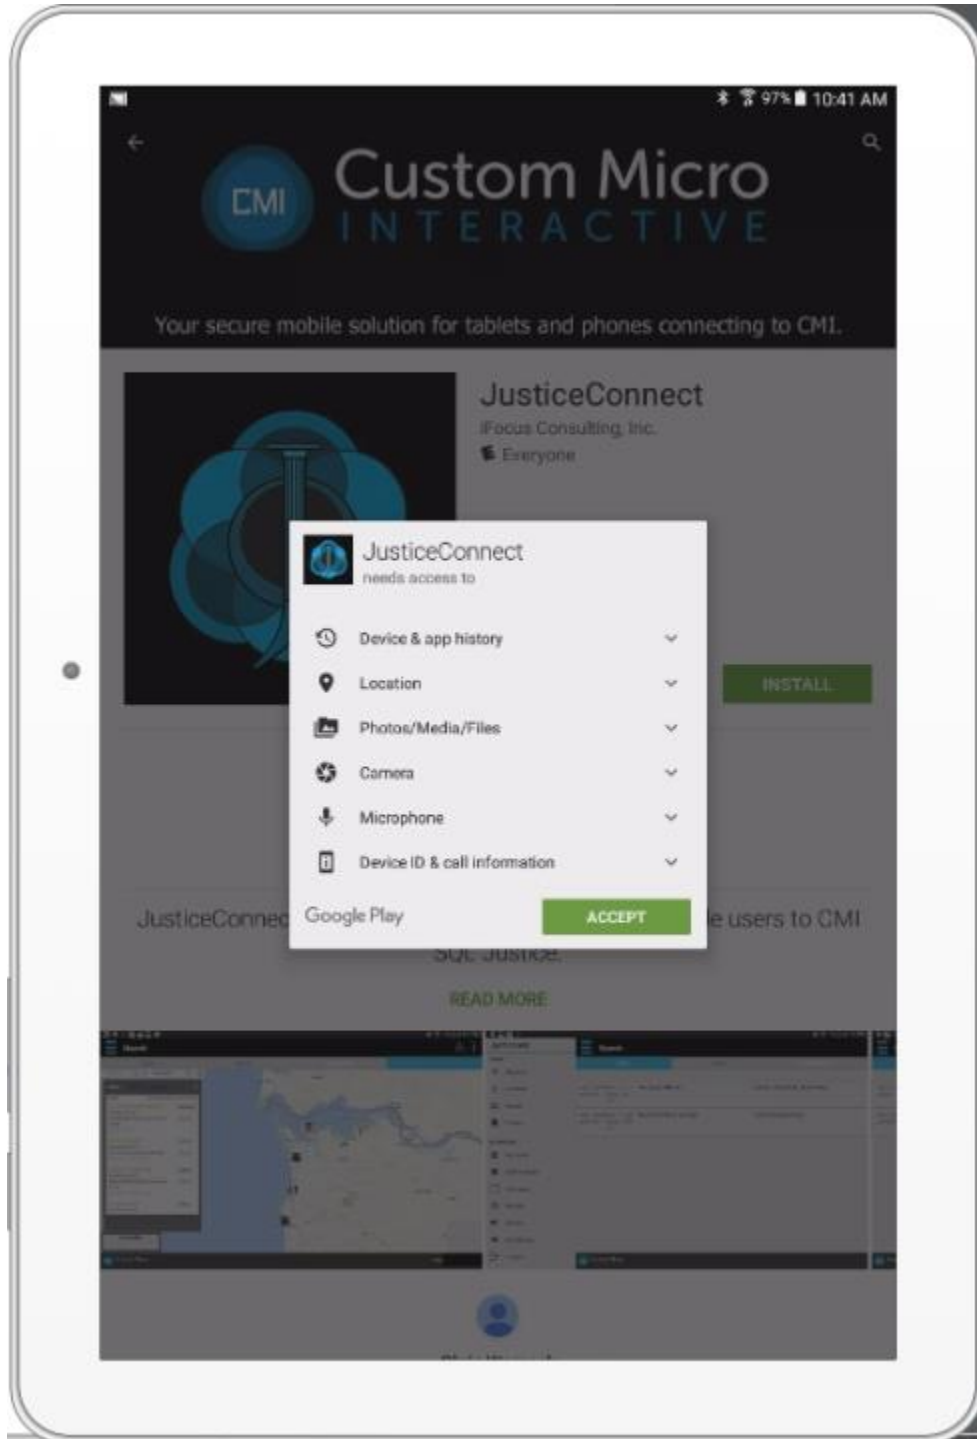

for **JusticeConnect**

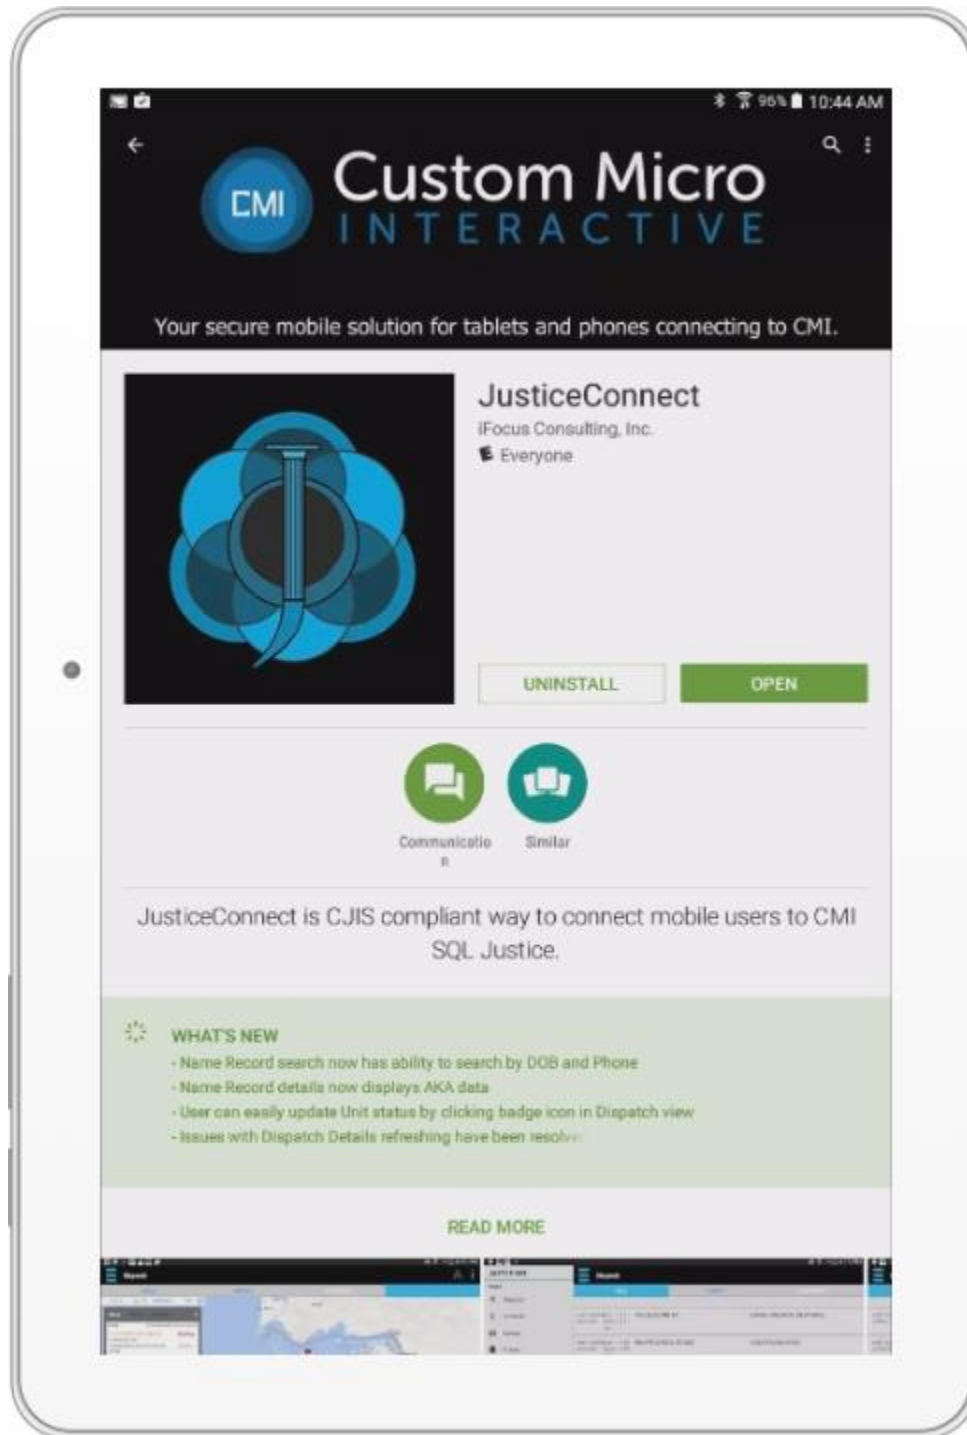

Click the **INSTALL** button

Click to **Accept** Device Access Policy

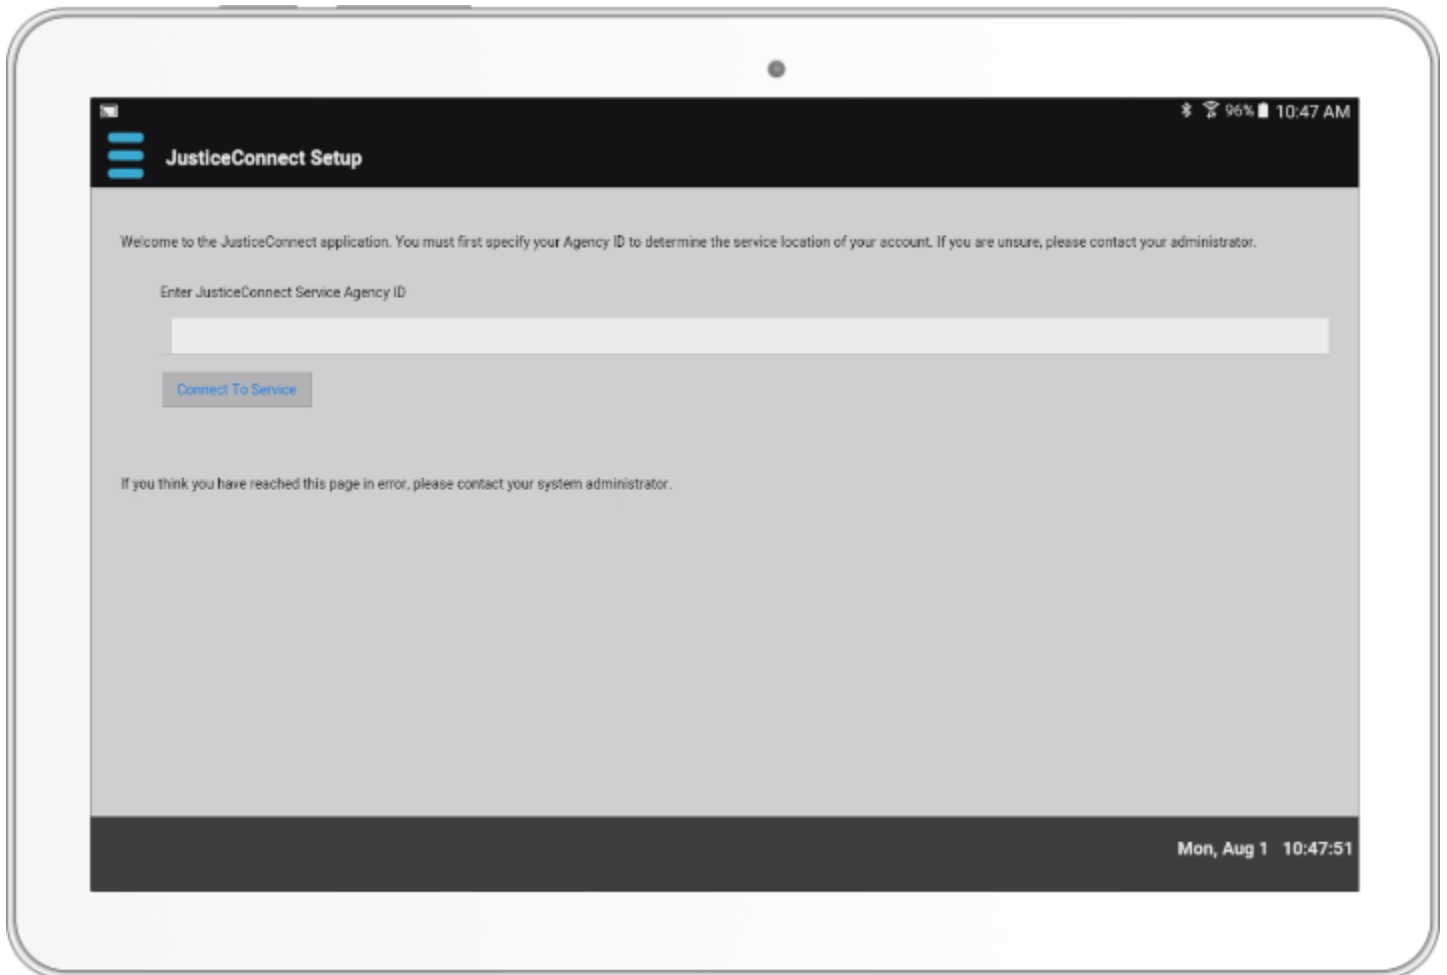

Click the **ACCEPT** button

Once Loaded **Open** the App

Click the **OPEN** button

Step 2: Connect to Agency

After installing JusticeConnect an opening setup screen will ask for an **AGENCY ID**. Please enter your ID and click **Connect to Service**

Contact support or ask your Agency Administrator if you don't know your assigned ID.

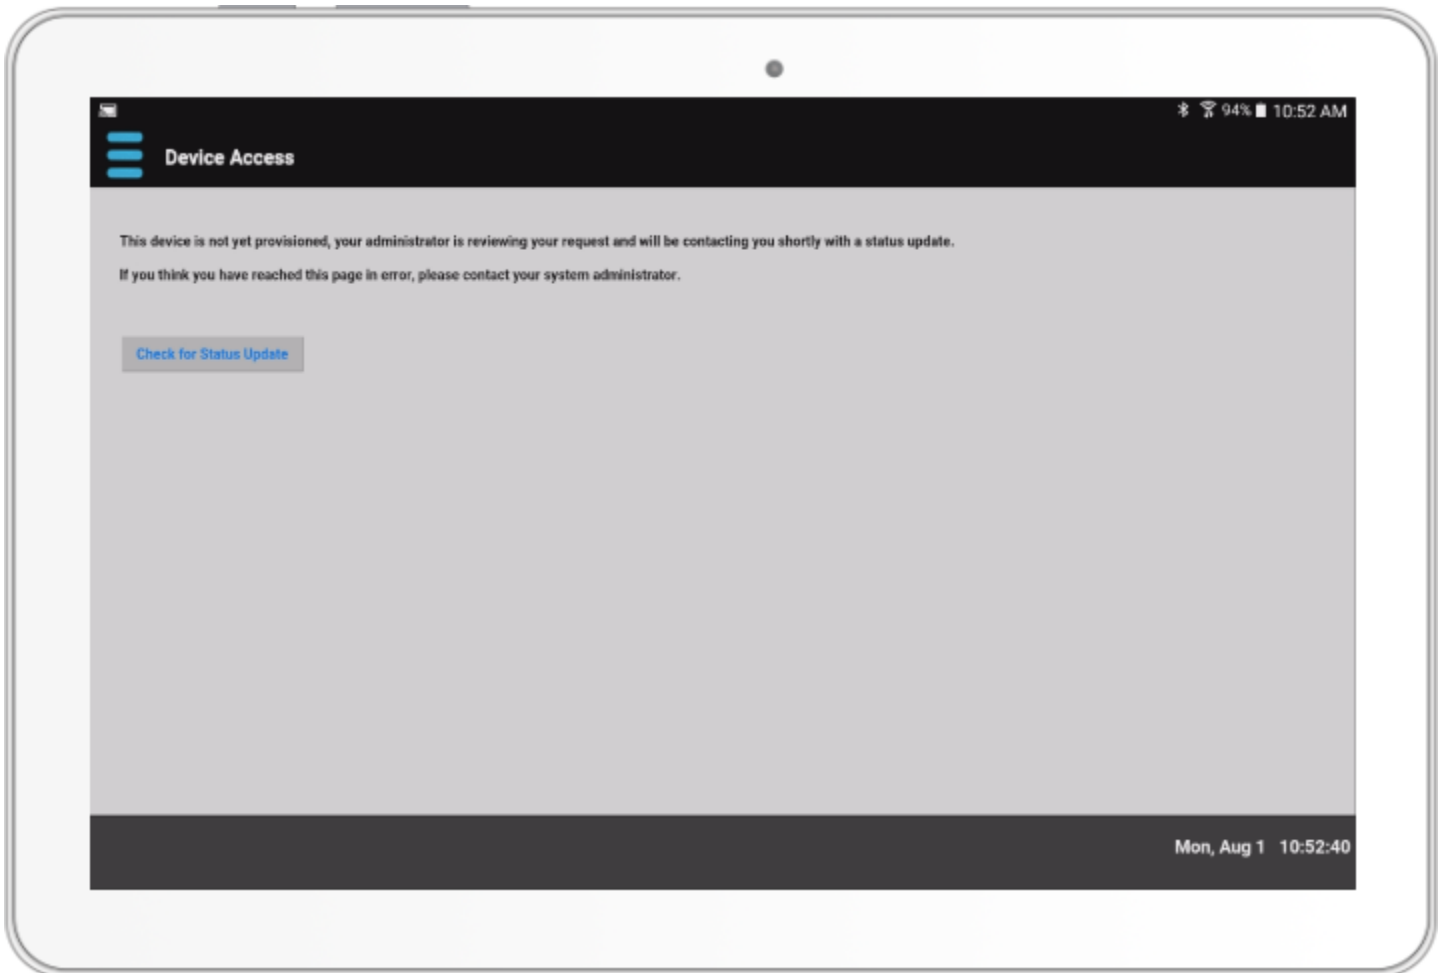

Step 3: Send Provisioning Request

The screenshot shows a mobile application interface for requesting device access. The header bar is black with the text 'Device Access' in white. Below the header, there is a light gray background with the following text: 'To access the JusticeWeb system, this device must be provisioned to be allowed access Please fill out the form below to request that this device be provisioned.' The form consists of several text input fields: 'Device Name', 'Your Full Name', 'Department', 'Email', 'Phone', and 'Shared Device'. To the right of these fields is a large white rectangular area, possibly for a photo or additional notes. At the bottom right of the form, there are two radio buttons: 'NO' (which is selected) and 'YES'. A blue 'Submit Request' button is located at the bottom left of the form. Below the form, there is a small line of text: 'If you think you have reached this page in error, please contact your system administrator.'

Every device connecting to the **JusticeConnect** Server must be provisioned and approved before access is granted.

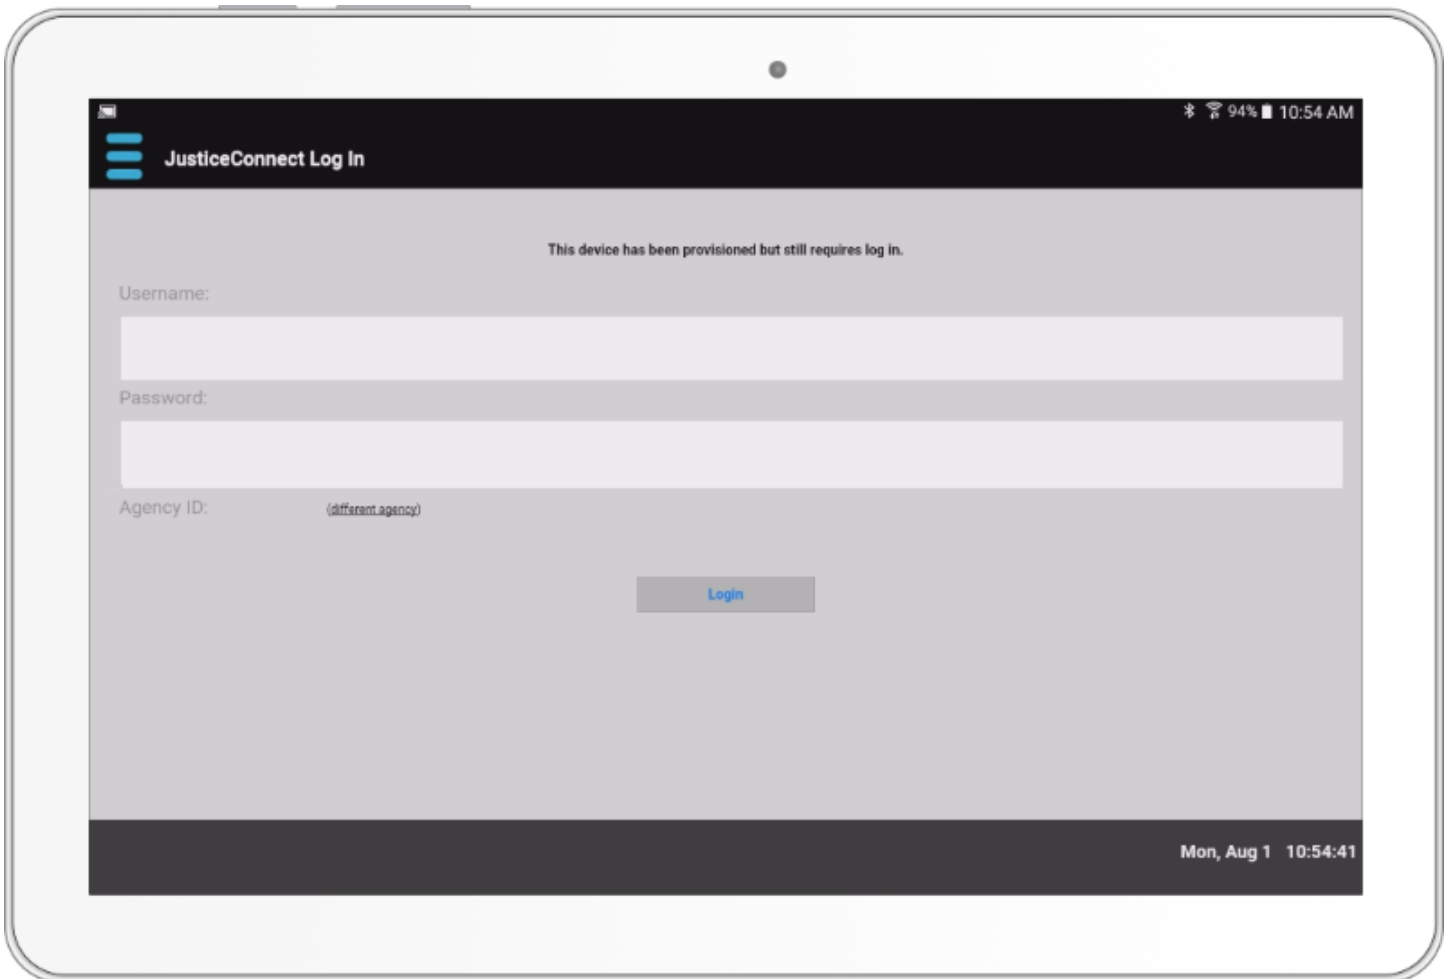

On the **Device Access** screen, fill all fields and click **Submit Request**

Step 4: Wait for Administration Approval

A screen will appear showing that your request has been sent and an Administrator will review and approve. You can close the app and return to it once you have received an automatic confirmation email from the **JusticeConnect** Server that your device request has been approved.

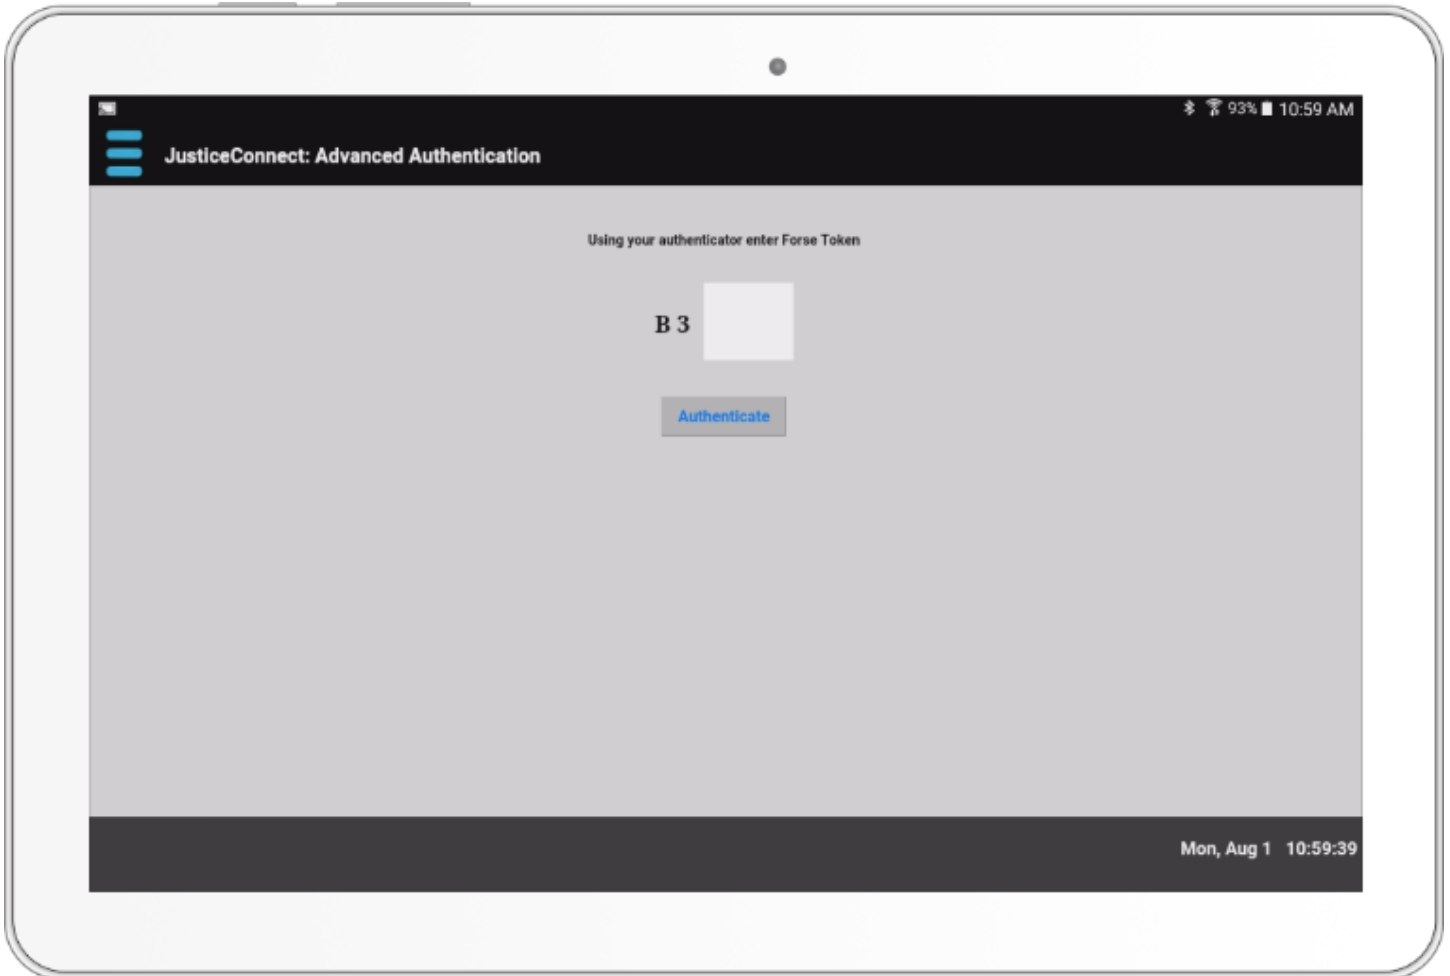

Step 5: Login to JusticeConnect App

After the provisioning request for your device has been approved, a **JusticeConnect Log In** screen will appear.

Enter your existing **CMI** credentials into the Username and Password fields and continue with Login.

Step 6: Provide Advanced Authentication Token

After CMI credentials have been successfully authenticated, a screen will prompt for **Advanced Authentication**.

Using your unique **Forse Token Card**, enter the response to match the grid request.
